WILSY OS

G64 Institutional Ratification Record

Dynamic • Prefilled • Electronically Signable • Git-Ready

Document Ref: G64-WILSY-20261027-001 | Version: v2.1 Letterhead Edition | Reg: 2024/617944/07 | Ratifier: Wilson Khanyezi | Status: DRAFT — NOT RATIFIED

PROFESSIONAL DYNAMIC FORM — This document uses native Word Content Controls (dropdowns, date pickers, editable fields). All institutional identity is prefilled from verified CIPC & Information Regulator certificates you provided. Blank/UNRESOLVED = DENY. Signing does not enable runtime access; enforcement requires independent verification gates.

CONFIDENTIAL — INTERNAL GOVERNANCE — WILSY OS — This document contains prefilled verified CIPC data and dynamic controls. UNRESOLVED = DENY.

03 D01–D10 Decision Register — Dynamic Dispositions with Prefilled Templates

Each decision uses a dropdown for disposition. Rationale, evidence, lifecycle, and acceptance criteria are editable content controls prefilled with professional templates.
Blank/UNRESOLVED = DENY (fail-closed).

D01 Reviewer eligibility and authorization role

Decision basis: Eligible principals/roles and exclusions; authoritative IAM issuer, permission, exact operation binding.

Disposition: RESOLVED — APPROVED

Rationale and exact scope (prefilled template — edit as needed): Only Founder/Director/Sole Owner Wilson Khanyezi and delegated Governance Board members with verified CIPC appointment. Excludes self-review for G64 IAM grant. Binding: IAM issuer WILSY OS IAM, permission G64_REVIEW, operation REVIEW_G64_DECISION.
Evidence locators + SHA fingerprints: COR14.1 / COR14.3 / COR15.1A / Information.pdf / server/assets/logo/wilsy.jpeg — SHA: [auto-calc] — Git: Mawilis/legal-doc-system#D01
Effective / Expiry / Review + Revocation owner: Effective: 2026-10-27 / Expiry: 2027-01-25 (90d) / Review: 30d / Revoke owner: Wilson Khanyezi
Acceptance criteria + verification owner: Criteria: Independent verification of CIPC appointment + logo integrity + policy source version pinned. Owner: Independent Governance Verifier (not self).

D02 Separation of duties

Decision basis: Prohibited reviewer/target/administrator identity combinations and independently verifiable enforcement.

Disposition: RESOLVED — APPROVED

Rationale and exact scope (prefilled template — edit as needed): Reviewer ≠ Target ≠ Administrator. Wilson Khanyezi cannot self-verify D03/D10. Enforcement via Git CODEOWNERS + IAM policy requiring independent approver signature.
Evidence locators + SHA fingerprints: COR14.1 / COR14.3 / COR15.1A / Information.pdf / server/assets/logo/wilsy.jpeg — SHA: [auto-calc] — Git: Mawilis/legal-doc-system#D02

CONFIDENTIAL — INTERNAL GOVERNANCE — WILSY OS — This document contains prefilled verified CIPC data and dynamic controls. UNRESOLVED = DENY.

UNIT 29 SUMATRA ESTATE, CORNER 8TH RD AND 7TH RD
NOORDWYK, MIDRAND, Gauteng 1682
Cell: 0827078596 | Email: wilsonkhanyezi@gmail.com

Effective / Expiry / Review + Revocation owner: Effective: 2026-10-27 / Expiry: 2027-01-25 (90d) / Review: 30d / Revoke owner: Wilson Khanyezi
Acceptance criteria + verification owner: Criteria: Independent verification of CIPC appointment + logo integrity + policy source version pinned. Owner: Independent Governance Verifier (not self).

D03 Authority for NO_WALL_REQUIRED

Decision basis: Authorized decision role, independent policy basis, prohibition on self-review/requester-selected outcomes.

Disposition: RESOLVED — APPROVED

Rationale and exact scope (prefilled template — edit as needed): Authority: Founder/Director with CIPC verified appointment + Information Officer registration. No WALL required only when policy basis is G64 institutional ratification itself and not practitioner-content access. Self-review prohibited.
Evidence locators + SHA fingerprints: COR14.1 / COR14.3 / COR15.1A / Information.pdf / server/assets/logo/wilsy.jpeg — SHA: [auto-calc] — Git: Mawilis/legal-doc-system#D03
Effective / Expiry / Review + Revocation owner: Effective: 2026-10-27 / Expiry: 2027-01-25 (90d) / Review: 30d / Revoke owner: Wilson Khanyezi
Acceptance criteria + verification owner: Criteria: Independent verification of CIPC appointment + logo integrity + policy source version pinned. Owner: Independent Governance Verifier (not self).

D04 Wall policy and membership source

Decision basis: Canonical policy/membership/version identifiers, source owner, integrity, consistency, fail-closed.

Disposition: RESOLVED — APPROVED

Rationale and exact scope (prefilled template — edit as needed): Source: server/legal/policy/G64_wall_policy.json — Owner: WILSY Governance — Version: v1.0 — Integrity: SHA3-512 pinned in Git — Fail-closed if membership source unavailable.
Evidence locators + SHA fingerprints: COR14.1 / COR14.3 / COR15.1A / Information.pdf / server/assets/logo/wilsy.jpeg — SHA: [auto-calc] — Git: Mawilis/legal-doc-system#D04
Effective / Expiry / Review + Revocation owner: Effective: 2026-10-27 / Expiry: 2027-01-25 (90d) / Review: 30d / Revoke owner: Wilson Khanyezi
Acceptance criteria + verification owner: Criteria: Independent verification of CIPC appointment + logo integrity + policy source version pinned. Owner: Independent Governance Verifier (not self).

CONFIDENTIAL — INTERNAL GOVERNANCE — WILSY OS — This document contains prefilled verified CIPC data and dynamic controls. UNRESOLVED = DENY.

Cell: 0827078596 | Email: wilsonkhanyezi@gmail.com

D05 Acknowledgement provenance and enforcement

Decision basis: Required actors, exact policy revision, timestamps, proof, enforcement evidence.

Disposition: RESOLVED — APPROVED

Rationale and exact scope (prefilled template — edit as needed): Actors: Director + Information Officer. Revision: G64 v1.0. Proof: Signed ratification doc + Git commit + SHA fingerprints of COR14.* docs. Enforcement: IAM denies until this record is RATIFIED.
Evidence locators + SHA fingerprints: COR14.1 / COR14.3 / COR15.1A / Information.pdf / server/assets/logo/wilsy.jpeg — SHA: [auto-calc] — Git: Mawilis/legal-doc-system#D05
Effective / Expiry / Review + Revocation owner: Effective: 2026-10-27 / Expiry: 2027-01-25 (90d) / Review: 30d / Revoke owner: Wilson Khanyezi
Acceptance criteria + verification owner: Criteria: Independent verification of CIPC appointment + logo integrity + policy source version pinned. Owner: Independent Governance Verifier (not self).

D06 Emergency denial, revocation, and incident authority

Decision basis: Authorized emergency actors, narrow operations, immediate deny/revoke, audit trail, incident owner.

Disposition: RESOLVED — APPROVED

Rationale and exact scope (prefilled template — edit as needed): Emergency actors: Director Wilson Khanyezi + appointed Incident Owner. Operations: REVOKE_G64, DENY_ALL_G63. Audit: Git revert + Information Regulator log. Immediate effect.
Evidence locators + SHA fingerprints: COR14.1 / COR14.3 / COR15.1A / Information.pdf / server/assets/logo/wilsy.jpeg — SHA: [auto-calc] — Git: Mawilis/legal-doc-system#D06
Effective / Expiry / Review + Revocation owner: Effective: 2026-10-27 / Expiry: 2027-01-25 (90d) / Review: 30d / Revoke owner: Wilson Khanyezi
Acceptance criteria + verification owner: Criteria: Independent verification of CIPC appointment + logo integrity + policy source version pinned. Owner: Independent Governance Verifier (not self).

D07 Approval duration and review cadence

Decision basis: Maximum validity, review schedule, expiry behavior, renewal authority, stale-state handling.

CONFIDENTIAL — INTERNAL GOVERNANCE — WILSY OS — This document contains prefilled verified CIPC data and dynamic controls. UNRESOLVED = DENY.

WILSY (Pty) Ltd
Trading as WILSY OS
Reg No: 2024/617944/07 | K2024617944
Tax No: 9395759229
Information Regulator: 2026-070292
UNIT 29 SUMATRA ESTATE, CORNER 8TH RD AND 7TH RD
NOORDWYK, MIDRAND, Gauteng 1682
Cell: 0827078596 | Email: wilsonkhanyezi@gmail.com

Disposition: RESOLVED — APPROVED

Rationale and exact scope (prefilled template — edit as needed): Validity: 90 days max. Review: 30/60/90 day mandatory. Expiry = DENY. Renewal authority: Director only with fresh CIPC extract. Stale state defaults to DENY.
Evidence locators + SHA fingerprints: COR14.1 / COR14.3 / COR15.1A / Information.pdf / server/assets/logo/wilsy.jpeg — SHA: [auto-calc] — Git: Mawilis/legal-doc-system#D07
Effective / Expiry / Review + Revocation owner: Effective: 2026-10-27 / Expiry: 2027-01-25 (90d) / Review: 30d / Revoke owner: Wilson Khanyezi
Acceptance criteria + verification owner: Criteria: Independent verification of CIPC appointment + logo integrity + policy source version pinned. Owner: Independent Governance Verifier (not self).

D08 Explicit-deny precedence

Decision basis: Precedence across conflict/review/wall/membership/expiry/revocation; current deny overrides stale positive history.

Disposition: RESOLVED — APPROVED

Rationale and exact scope (prefilled template — edit as needed): Order: EXPLICIT DENY > REVOCATION > EXPIRY > WALL > MEMBERSHIP > APPROVAL. Current DENY always overrides historical APPROVE.
Evidence locators + SHA fingerprints: COR14.1 / COR14.3 / COR15.1A / Information.pdf / server/assets/logo/wilsy.jpeg — SHA: [auto-calc] — Git: Mawilis/legal-doc-system#D08
Effective / Expiry / Review + Revocation owner: Effective: 2026-10-27 / Expiry: 2027-01-25 (90d) / Review: 30d / Revoke owner: Wilson Khanyezi
Acceptance criteria + verification owner: Criteria: Independent verification of CIPC appointment + logo integrity + policy source version pinned. Owner: Independent Governance Verifier (not self).

D09 Point-of-read revalidation and transactions

Decision basis: Revalidation immediately before content read; transaction/session ownership, scope binding, concurrency/failure behavior.

Disposition: RESOLVED — APPROVED

Rationale and exact scope (prefilled template — edit as needed): Revalidation on every content read. Transaction bound to ratifier session ID. Scope = GLOBAL WILSY OS unless restricted. Failure = DENY.
Evidence locators + SHA fingerprints: COR14.1 / COR14.3 / COR15.1A / Information.pdf / server/assets/logo/wilsy.jpeg — SHA:

Acceptance criteria + verification owner: Criteria: Independent verification of CIPC appointment + logo integrity + policy source version pinned. Owner: Independent Governance Verifier (not self).

D10 Independent approval, rollout, and rollback

Decision basis: Independent policy approver and authority; rollout/rollback owners, release gates, monitoring, triggers, tested rollback.

Disposition: RESOLVED — APPROVED

Rationale and exact scope (prefilled template — edit as needed): Independent approver: Governance Board member distinct from ratifier (to be appointed). Rollout owner: Wilson Khanyezi. Rollback: git revert + IAM deny + 24h monitoring. Gate: all D01-D09 must be APPROVE or CONDITIONAL with evidence.
Evidence locators + SHA fingerprints: COR14.1 / COR14.3 / COR15.1A / Information.pdf / server/assets/logo/wilsy.jpeg — SHA: [auto-calc] — Git: Mawilis/legal-doc-system#D10

05 Signatures & Electronic Attestation — Professional Signable

Institution	WILSY (Pty) Ltd — 2024/617944/07
Ratifier Name (Prefilled)	KHANYEZI, WILSON
Capacity (Prefilled)	Founder / Director / Sole Owner — 100% Shareholder
Electronic Signature — Type, Draw, or Insert Image	**Wilson Khanyezi — Click to sign (typed signature is legally binding per ECT Act 25 of 2002)**
Signature Date (UTC) — Date Picker	2026-10-27
Independent Governance Witness / Approver	[Enter independent approver name — required for D10]
Git Commit Evidence / SHA	Branch: g64-evidence/initial-export — Commit: [auto on push] — Doc SHA: [auto] — Time: 2026-10-27 09:09 UTC

HOW TO SIGN ELECTRONICALLY (Word for Mac / Windows):
1. Click the 'Electronic Signature' field above → Type your full name OR Insert > Pictures > Upload your handwritten signature PNG (transparent background recommended).
2. On Mac: Insert > Signature Line OR use Draw tab to ink sign with trackpad.
3. Click Signature Date picker → select today.
4. Save: File > Save — Document remains dynamic with all dropdowns intact.
5. Commit to Git (instructions below) — This creates immutable audit trail required for institutional ratification.
Legal Basis: Electronic Communications and Transactions Act 25 of 2002 (South Africa) — typed e-signature with intent + verification docs = binding.

CONFIDENTIAL — INTERNAL GOVERNANCE — WILSY OS — This document contains prefilled verified CIPC data and dynamic controls. UNRESOLVED = DENY.

06 Mandatory Release Guard & Git Save Instructions

RELEASE GUARD: Until authority and provenance are independently verified (COR14.*, Information Regulator cert) and runtime enforcement gates pass, G63 remains INSTITUTIONAL_APPROVAL_MISSING. Every UNRESOLVED decision remains DENY. No reviewer authorization, positive practitioner-content disclosure, or ethical-wall enforcement claim may be enabled by signing this record alone.

How to Save Back to Git (using your G64_REPOSITORY_EXPORT_TOKEN)

```
# 1. Move new doc into repo (replace old version)
cp "/mnt/data/WILSY_OS_G64_Dynamic_Ratification_Record_PROFESSIONAL.docx" ~/legal-doc-system/docs/ratification/

# 2. Replace logo in repo with real logo you just extracted
cp /mnt/data/wilsy.jpeg ~/legal-doc-system/server/assets/logo/wilsy.jpeg
# Verify
ls -lh ~/legal-doc-system/server/assets/logo/wilsy.jpeg

# 3. Stage verification docs you attached
cp /mnt/data/COR14*.pdf ~/legal-doc-system/docs/verification/
cp /mnt/data/Information.pdf ~/legal-doc-system/docs/verification/
cp /mnt/data/WELCOME.pdf ~/legal-doc-system/docs/verification/

# 4. Calculate fingerprints for audit
cd ~/legal-doc-system
sha256sum server/assets/logo/wilsy.jpeg docs/verification/*.pdf docs/ratification/*.docx >
docs/verification/SHA256SUMS.txt
cat docs/verification/SHA256SUMS.txt

# 5. Commit
git checkout -b g64-evidence/initial-export
git add docs/ratification/WILSY_OS_G64_Dynamic_Ratification_Record_PROFESSIONAL.docx server/assets/logo/wilsy.jpeg
docs/verification/
git commit -m "feat(g64): professional WILSY OS ratification record v2 — real logo, prefilled CIPC 2024/617944/07,
dynamic dropdowns, e-signable"

# 6. Push using token from keychain
# (token already in keychain from earlier: security find-generic-password -a "$USER" -s
"G64_REPOSITORY_EXPORT_TOKEN" -w)
git push -u origin g64-evidence/initial-export
```

CONFIDENTIAL — INTERNAL GOVERNANCE — WILSY OS — This document contains prefilled verified CIPC data and dynamic controls. UNRESOLVED = DENY.
