1. Epitome & Sovereign Architectural Vision

The **FG202 Decision Engine** represents the executive execution hub of Phase III Autonomous Operations. Consuming synthesized observations, predictive forecasts, and governance policies, it formulates and signs definitive operational decisions. Whether executing repository cleanups, scheduling reviews, scaling compute workers, creating releases, blocking unauthorized deployments, or notifying the chief architect, FG202 ensures mathematically sound action.

"And he shall be like a tree planted by the rivers of water, that bringeth forth his fruit in his season; his leaf also shall not wither; and whatsoever he doeth shall prosper." — *Psalms* 1:3
